Priority Summary

Cottonwood Heights Public Works Department

Priority 1

Removal of snow from collectors and arterials considered to be essential for the safe movement of public safety vehicles in the city.

Priority 3

All other collector and various local streets completing a street network covering major traffic volume areas and selected trouble areas such as intersections and roads on steep slopes.

Priority 2

All remaining collector streets that service schools, bus routes, and other essential public services.

Special Service Area

This area is serviced exclusively by one of the nine S.L. Co. trucks dedicated to the city due to its high elevation, steep slopes and high precipitation.
